

# AssetTag

## BLE Edition

## Next-Generation Asset Tracking for Accurate Location and Sensing.

### KEY FEATURES

#### Feature & Benefits

- Peel-n-stick or screw mountable
- Industrial-grade, IP68/69 rating
- Operates reliably from -20°C to 85°C
- Exceptional 5 to 8+ years of operation
- Long-range BLE (100m+)
- Remote firmware updates.
- Configurable device profiles
- Tamper detection.

#### Sensor Array

- Temperature:  $\pm 1.0^{\circ}\text{C}$
- Pressure:  $\pm 0.12\text{ hPa} / \pm 1\text{m}$
- Accelerometer:  $\pm 16\text{ g}$
- Gyroscope:  $\pm 2000\text{ dps}$

The AssetTag BLE Edition is a compact, multi-purpose industrial device designed for accurate asset tracking and sensing in both indoor and outdoor environments. Leveraging adaptive IoT sensors and Bluetooth 5.1 technology, it ensures real-time data with a long operational life.

#### Applications & Use Cases:

- ✓ Indoor/Outdoor asset tracking
- ✓ Real-time location systems (RTLS)
- ✓ Asset and equipment utilization
- ✓ Smart facilities & warehousing
- ✓ Parking lot optimization
- ✓ Yard management
- ✓ In-mine tracking and safety

**Perfect for Logistics, Warehousing, Manufacturing,  
Construction, Mining, and Car Dealerships.**
